# ABOUT US

Started by Daniel Gittere in 2022, Acoustics for a Cause was created to focus on bringing businesses and communities together by connecting networking, education, and music to benefit charity. The goal of Acoustics for a Cause is to hold a series of events, including casual gatherings, VIP events, and larger-scale experiences, that provide an opportunity for businesses and industry professionals to gather while helping to raise awareness of local non-profit organizations in need.

Throughout his career, Dan has helped raise hundreds of thousands of dollars for various charitable organizations across the US. With a passion for community service and a background in the business world, Dan envisioned a more efficient way to involve businesses and corporations of all sizes to help distribute proceeds to groups in need.

The seed for Acoustics for a Cause was planted in late 2021 and launched its first annual event on March 5, 2022. With Dan's vision, help from the business community, and the staff from VSP Marketing Group, the first event was a massive success. Acoustics for a Cause was covered by local news media and recognized as the only organization to raise awareness for its first recipient, Els For Autism®, through a concert and music series.
